The date recalls the early Arab-Sasanian drachms struck in Sijistan with the frozen date 'year 20' and the letter in the obverse margin does resemble an Arabic *'ayn*. However, the same symbol is also found as a Hephthalite countermark (Göbl c/m 21) and is associated with a Brahmi inscription, suggesting that a Hunnish origin is more likely in this case. On the present coin the symbol was engraved in the die rather than being applied as a countermark.

Previously thought to be patterns, research suggests that pieces dated 1662 were issued for a very short period as currency coins, whilst similar specimens dated 1660 and 1661 were made as commemorative medals *(see* Lessen, M., *Simon's Mill Gold Coins and Medals of Charles II, 1660-2,* in BNJ 65 (1995), pp. 151-168).

The nominal weight of the coin was 140.49gr. (9.10g) so the present specimen is of good weight in spite of the irregular flan. This would seem to support the view that it was intended as a circulating coin, not a pattern or medal.

From the Collection of Lord Clark, O.M.; thence by descent.

KENNETH CLARK (1903-1983) is primarily known for his seminal 1969 television series *Civilisation*. Lord Clark held a variety of important and scholarly positions within the British art establishment including, at the age of 31, the directorship of the National Gallery. He collected widely and after his death Sotheby's held a sale of part of his collection which demonstrated his eclectic taste in art of all periods, including Renaissance medals and plaquettes. The present piece, often referred to as one of the most beautiful of all German coins, fits in well with Renaissance medallic portraiture in that its inspiration comes from the Italian marriage medal of 1477 attributed to Giovanni Candida, an example of which is coincidentally offered in this sale (see lot 396).

The decade of the date is clearly written *saba'in* rather than *tisa'in,* and enough remains of the unit to identify it as either *saba'* or *tis',* but the reverse clearly cites *Arghun* in Arabic as well as in Uyghur. Puzzlingly, the reverse die used here was clearly well-worn when this coin was struck, even though Arghun himself did not become Sultan until 683h – several years after the date on the obverse. The coin may be a mule, possibly struck shortly after the accession of Ghazan Mahmud (whose early dinars still name Arghun), but the date on the obverse is difficult to explain.

882
***Ilkhanid, Ghazan Mahmud (694-703h),** dinar, Madinat Tabriz, date (694h) off flan, 3.39g (Diler 259), *ragged flan and a typically crude striking, otherwise extremely fine for issue* £140-180

Each lot is available for examination before sale. Bidders are responsible for carrying out examinations and research before sale to satisfy themselves over the condition of lots and accuracy of descriptions.

(b) All oral and/or written information provided to Bidders relating to lots, including descriptions in the catalogue, condition reports or elsewhere are statements of M&E's opinion and not representations of fact. Estimates may not be relied on as a prediction of the selling price or value of the lot and may be revised from time to time at M&E's absolute discretion.

4. Exclusions and limitations of liability to Buyers

(a) M&E shall refund the Purchase Price to the Buyer in circumstances where it deems that the lot is a Counterfeit, subject to the terms of M&E's Authenticity Guarantee.

(h) commence legal proceedings to recover the Purchase Price for the lot, plus interest and legal costs;

(i) disclose the Buyer's details to the Seller to enable the Seller to commence legal proceedings.

(d) If any part of these Conditions of Business be held unenforceable, the remaining parts shall remain in full force and effect.

(e) These Conditions of Business shall be interpreted in accordance with English Law, under the exclusive jurisdiction of the English Courts, in favour of M&E.

Morton & Eden Ltd.'s Authenticity Guarantee

If Morton & Eden Ltd. sells an item of Property which is later shown to be a "Counterfeit", subject to the terms below Morton & Eden Ltd. will rescind the sale and refund the Buyer the total amount paid by the Buyer to Morton & Eden Ltd. for that Property, up to a maximum of the Purchase Price.

The Guarantee lasts for two (2) years after the date of the relevant auction, is for the benefit of the Buyer only and is non-transferable.

"Counterfeit" means an item of Property that in Morton & Eden Ltd.'s reasonable opinion is an imitation created with the intent to deceive over the authorship, origin, date, age, period, culture or source, where the correct description of such matters is not included in the catalogue description for the Property.
Property shall not be considered Counterfeit solely because of any damage and/or restoration and/or modification work (including, but not limited to, traces of mounting, tooling or repatinating).
Please note that this Guarantee does not apply if either:-

(i) the catalogue description was in accordance with the generally accepted opinions of scholars and experts at the date of the sale, or the catalogue description indicated that there was a conflict of such opinions; or

(ii) the only method of establishing at the date of the sale that the item was a Counterfeit would have been by means of processes not then generally available or accepted, unreasonably expensive or impractical; or likely to have caused damage to or loss in value to the Property (in Morton & Eden Ltd.'s reasonable opinion); or

(iii) there has been no material loss in value of the Property from its value had it accorded with its catalogue description.

To claim under this Guarantee, the Buyer must:-
